JOURNAL OF MULTIDISCIPLINARY STUDIES
(EAUEDJMS)**

Volume 1 No. 2, 2024

Editorial Comment

The twelve articles featured in this issue reflect a rich and multidisciplinary engagement with pressing societal challenges, particularly around sustainable development, education, youth empowerment, and climate resilience. The first article explores the Intersection of cultural Tourism and family food choices in rural and urban communities, while the second article examines effects of a 12-Week strength training programme on the muscular fitness of handball players in Lagos State. Further, descriptive analysis of the Influence of the 4Cs Skills on pupils learning outcome for sustainable development is considered in the third article. The study suggests that schools should prioritize the development of 4Cs skills through innovative teaching methods and curriculum design. The fourth article addresses approaches in boosting youths' engagement in animal agriculture for employment and sustainable development in Oyo Metropolis, Oyo State, Nigeria, while the fifth article assesses motor parks in Oyo metropolis in the waves of climate change.

The sixth article investigates impacts of climate variability on cocoa farmers' livelihoods in Idanre and Odigbo local government areas of Ondo State, Nigeria. The impact of classroom management on academic achievement of students in Oral English is the focus of seventh article. The assessment of employability skills among pre-service science teachers in public universities in Oyo State, Nigeria is considered in the eight article. Similarly, article nine assesses techniques and innovation for teaching, learning, and research in Business Education for employability and sustainability. Higher education and sustainable development in the 21st Century and the implications on youth employability is discussed in the tenth article, while article eleven addresses issues on gender class and disability

intersections. The last article focuses on higher education and youth employability.

The twelve articles presented in this issue offer valuable insights into the multifaceted challenges and opportunities shaping path toward sustainable development. Examination of diverse themes ranging from cultural tourism and physical fitness to classroom management, climate resilience to youth employability underscores the importance of interdisciplinary research in addressing the nation's developmental goals. The featured studies not only highlight critical areas in education, agriculture, and environmental sustainability but also propose actionable strategies to empower young people, enhance teaching and learning, and build more resilient communities.
